Public Review Review By - Kameswari Aluril really love this game. It's a wonderful mindset discovering this game. I always play this game only. even though my mom scolds me I only play this game. I even told my friends about this game as well. They are also looking forward to playing this game. But you can even still improve the game. I faced a problem in buying 50 gun separation diamonds that don't work for me. So please try not to occur this type of bugs in this game. Thank you I love the game, but a few things I wanted to say after this update. I feel like the Giants are weak now, especially since now you can focus on their head and do more damage. I'd give the giants double their health and his attack targeted five soldiers instead of 3. Then, for the tournament, the mad mod is too easy as you have the skin and special skills available. I would definitely make them more spells and more aggressive. Well well, you probably won't see it, just sharing my thoughts thoughts
